Notes:

- *1 For definitions and measurement units see general notes on paramount peaks
- *2 Hüyten is on the border of Mongolia and Xinjiang Uyghur, China
- *3 Dunheger is on the border of Mongolia and Xinjiang Uyghur, China
- *4 There is confusion about the names of the peaks of the Tavan Bogd group, Altai Mountains. This table assumes that the Friendship Peak (Nairamdal Uul, Youyi Feng) is the 3-border point shared by Mongolia, Russia and China - at 4180 m (or 4080) not actually a paramount peak. Some sources confuse it with Hüiten (Kaytan) the highest peak in Mongolia, shared by China and Mongolia only. Even this is not the highest peak of the Altai Range - that is inside Russia.
- *5 Munku Sardyk is on the border of Mongolia and Buryatia, Russia
- *6 Zun Gunzan is on the border of Mongolia and Buryatia, Russia
- *7 Odzhituy is on the border of Mongolia and Zabaykalsky Krai, Russia
- *8 Mörögtsög Uus is on the border of Mongolia and Inner Mongolia, China
