Notes:

- *1 For definitions and measurement units see general notes on paramount peaks
- *2 Pico Simon Bolivar and Pico Cristobal Colon are nearly the same height, about 5700 m (not 5775 m quoted in some sources). Pico Colon is usually considered the higher and thus the highest peak in Colombia. This avoids the confusion with Pico Bolivar in Venezuela (the highest peak of Venezuela).
- *3 Sumaria top is on the border of Colombia and Brazil (Amazonas)
- *4 Chiles is on the border of Colombia and Ecuador
